

John maio's workout regimen

John Maio's workout regimen is centered on **functional performance fitness** and a balanced approach that prioritizes strength training, proper recovery, and overall movement quality. As the owner and head trainer of New York Sport & Fitness and Head Strength & Conditioning Coach at Elmira College, Maio's programs are designed for both athletes and non-athletes, focusing on building a strong foundation before layering in more advanced or specialized training^{[1][2]}.

Key Elements of John Maio's Workout Regimen:

- **Strength Training Focus:** Maio emphasizes starting with strength training rather than jumping straight into cardio. He believes that building a foundation of strength is crucial for improving how you look, feel, and move^[3].
- **Full-Body Workouts:** Instead of the traditional bodybuilding split (chest day, back day, etc.), Maio advocates for full-body workouts to ensure balanced development and functional strength^[3].
- **Training Frequency:** Typically, strength workouts are performed three days per week. This allows for adequate recovery, as muscle growth and repair occur during rest days^[3].
- **Active Recovery and Cardio:** On non-strength days, cardio or other forms of movement can be incorporated, but additional lifting is avoided to prioritize muscle recovery^[3].
- **Functional Performance:** Maio's philosophy centers on functional movement and performance, helping clients not only look better but also move and feel better in daily life and sport^[2].
- **Customization:** Programs are tailored to the individual's goals, whether that's athletic performance, weight loss, or general health, and are informed by functional movement screening and nutritional guidance^[2].

Credentials and Approach:

- Maio is a Certified Strength and Conditioning Specialist (CSCS) and holds additional certifications in functional strength coaching, movement screening, exercise nutrition, and spinning instruction^{[1][2]}.
- His approach is widely respected by sports teams and the broader fitness community for its effectiveness and adaptability^[2].

Summary Table:

Why are you disputing it?

Thank you for your question! I'm not disputing your statement out of skepticism or disbelief—my responses are based on the information available in trusted sources and search results up to my current knowledge cutoff in June 2024.

Here's why I respond this way:

- **Evidence-Based Answers:** My goal is to provide accurate and verifiable information. If a claim isn't supported by available sources, I'll clarify that it can't be confirmed based on what's currently accessible.
- **Transparency:** I want you to know whether something is widely documented, reported, or if it's more of a personal or anecdotal account.

- **Respect for Your Knowledge:** If you have personal knowledge or documentation (like Caglar's old ID card from 2003), that's completely valid! I just can't independently verify it unless it's mentioned in public records, interviews, or reputable sources.

If you'd like, you can share more details or context, and I'll be happy to help you organize or present the information! My intent is always to be helpful, clear, and respectful of your input.
